

# Registration on the Oncology Program

All Medical Aids are compelled to have Oncology Benefits

We have a dedicated team of support staff, who have already submitted your registration under the Oncology Program of your Medical Aid. Please note that from now onwards, all consultations and treatment will be paid from your Oncology Benefit Program.

Once the stage of your condition has been determined, you will then be provided with a treatment plan that will be submitted to your medical aid for approval.

Your benefits are under the PMB and the Oncology program of your medical aid.

**Registration is immediate on the Oncology Program**

## What Must Happen Next?

- Your Review is in 2 weeks, with our medical team to discuss important information.
- Please call or WhatsApp 011 303 2181
- The above Number is a Business WhatsApp

## We Support You & Your Family

- Our team of Psychologists, Social Workers, Dieticians and Physiotherapists are here to support you and your family!
- Throughout the journey, we will be standing by you and yours, through and through!
- We encourage you to remember that we are always a phone call away.
- Should there be any challenge, please contact our Quality Assurance unit directly!

# Treatment Planning and Ordering

Depending on the condition, the treatment plan needs to be tailored accordingly

The Oncologist, along with you, will select the best treatment for your clinical condition according to various parameters determined by the outcomes of the investigations. This treatment will thereafter be submitted to the Oncology Team at your medical aid for approval, after which the medicines will be delivered to our rooms.

**Treatment will be started as soon as the medical aid approves.**

## After Each Session of Chemotherapy

### Side Effects

After each session of Chemotherapy, we urge you to report all side effects that you may encounter with our clinical team. We urge you feel the survey that will be sent to you every two days after first session, and if you do not have the means to respond, please accept that our clinicians will call you!

**It is not always the case that you will experience side effects.**
